

## CIRCLE THE WORLD

By Dana Lyons

What if we could circle the world  
Flying peace doves beneath the sun  
Giant twenty foot wings of fabric  
That are handmade by everyone  
Once a year we circle the world  
Saying ain't it time to bury the guns  
Our time has come and we have begun  
To Circle the World

It's a dream and it's a vision  
It's a prayer that we may see  
When every person, every creature  
Will be treated with dignity  
When every war will be a memory  
We never shall repeat  
Our time has come and we have begun  
To Circle the World

It's a parade and it's a party  
Giant puppets with many drums  
It's a song with many rhythms  
That is sung in many tongues  
It's a giant snake dance  
In every country beneath the sun  
Our time has come and we have begun  
To circle the world
